Feel free to send along photos for reference keeping in mind I cannot copy another artist.

PRICING

I charge \$30.00 per hour for your one of a kind piece! Each project takes a different amount of time, once I understand more of what you are looking for I can give you an estimate of how long I think it will take me to design.

Once I present the initial design we can go through rounds of revisions until you have exactly what you were dreaming of. Total hours are calculated at the end and may vary from previous estimate based on how many revisions there are.

If you are wanting a custom design of something that isn't currently in my shop there will be additional hours of work to determine the best printing method.

Each estimate includes 1 of the products selected above. If you would like to purchase more than 1 product please request wholesale price guide.
